

Extended Hood options:

Square Trim

Deco Trim

No Trim Option

Wood Strapping

Metal Strapping

Shiplap Option

Two-Tone Finish Option

Built-In Option

Hardwood Band

Hardwood Mantles

Paneled Mantles

Deco Ledge Mantles

Mantle Style Hoods

Square Trim

Available on all hood types – This is standard trim

Square trim adds 1 ½" to overall width and ¾" to overall depth of hoods.

Square trim will be installed on top and bottom edge of mantles.

CURVED W/ SQUARE TRIM

SLOPED W/ SQUARE TRIM

Deco Trim

Available on all hood types

Alternative decorative option to square trim

Same as square trim, Deco trim adds 1 1/2" to overall width and 3/4" to overall depth of hoods.

Deco trim will be installed on top and bottom edge of mantles.

CURVED W/ STRAPPING & DECO TRIM

SLOPED W/ DECO TRIM

CURVED W/ STRAPPING & DECO TRIM
PANELED MANTLE

No Trim Option

Available on all hood types

Alternative to square trim or deco trim

Same as square and deco, No trim options adds 1 1/2" to overall width and 3/4" to overall depth of hoods.

No trim option will be finished the same as the hood

CURVED W/ NO TRIM OPTION

Wood Strapping

Available on all hood types

Curved hoods will have strapping on corners, back edges, and 2 on front (spacing proportionate to size)

All other hood styles will have strapping on front only.

Top "connector" available upon request. *Will not come standard*
Top connector option is designed for hoods receiving top molding

CURVED W/ STRAPPING

SLOPED W/ STRAPPING

CURVED W/ STRAPPING & CONNECTOR

Metal Strapping

Available on all hood types with Square Trim or No Trim only.

Metal Strapping is 3/4" and will be installed on edges of square trim and 2 on canopy equally spaced only.

Available finishes:
Satin Brass, Polished Brass, Satin Stainless, Flat Black, & Titanium (gun metal)

***Note: Metal strapping is attached using a high quality double-sided adhesive and corners on trim are mitered to very tight tolerances. However, due to the expansion and contraction of the nature of wood vs. metal, there is a potential for very small joint gaps on the corners of the mitered metal joints.

Polished Brass

Satin Stainless

Titanium
(Gun Metal)

Flat Black

Satin Brass

Shiplap Option

Available on Boxed, Angled, and Tapered hood only

Shiplap spacing height will typically be 5 ½" – 7" but will be proportionate to the height of each hood to create equal spacing.

TAPERED WITH SHIPLAP

BOXED WITH SHIPLAP

“Two-tone” finish option

Available on Curved, Sloped, Boxed, Angled, and Tapered hoods only

Canopy will be finished one standard color and the mantle, trim, & solid bottom will be finished a different standard color.

BOXED WITH TWO-TONE PAINTED FINISH

Built-In Option

Available on all hood types

Built-In box will be 12" deep and mantle will be 8 ½" deep plus trim.

All Built-In hoods will have a removable canopy attached with furniture clips.

*Width of hood will be the actual Built-In box width. Trims will return to the face of the built-in box

It is recommended that the blower insert width to be 6" less than width of hood for built-in options

BUILT-IN SLOPED

Hardwood Band

Available on all hood types

Available hardwood species options (Maple, Cherry, White Oak, Walnut)

Hardwood Bands will be finished with a natural clear coat unless requested as unfinished.

All wood grain will run horizontally with mitered corners.

Hardwood band will be attached to outside of mantle to take the place of trim.

*Solid bottoms will be finished the same as the canopy of the hood

As does square trim, hardwood bands will add 1 1/2" to overall width of hood and 3/4" to the depth.

ANGLED W/ WHITE OAK HARDWOOD BAND

WALNUT

MAPLE

WHITE OAK

CHERRY

*Images are representations of typical wood grain and color of species. Actual hardwood will vary from piece to piece.
